CATALOGUE A/W 2024

WELCOME

Our brand philosophy:

Sweden is a country fortunate enough to have deep forests, clean water and an abundance of fresh air. We take the environment seriously and most Swedes have a close relationship to nature.

As a company, we want to do our part in taking responsibility for the planet and the people living on it. The raw material we use is either recycled or recyclable. We are careful to make sure we control each step of the production to be as sustainable as possible.

The human aspect is just as important. We choose small factories that we can develop a close relationship to, whether it's in Sweden or in Asia.

Sweden, as well as the rest of Scandinavia have a strong design oriented legacy. You could say that it's in our DNA.

Most Swedes have a relation to our iconic designers, growing up in homes where functional design was as natural as meatballs and potatoes for dinner.

Our wish is to continue following the path that our former generation of designers have paved the way for. We want to design beautiful and practical items in a Scandinavian style, using long lasting materials and never hold back on quality. It is not our intention to produce things for a season but for LIFE!

Our goal is to produce items you can grow old with, things that will make you smile and bring a little bit of Scandinavia into every home.

Welcome to browse through our assortment, and to Born in Swedens interpretation of the Scandinavian lifestyle.

Natural

Natural materials is a very important part of the nordic style. We live close to nature and love to surround ourselves with items that reminds us of the outdoor life. At Born in Sweden we use only FSC marked wood and recycled cork. Beautiful materials that age in style with patina.

RECYCLED CORK

Design: Veronica Vejsholt

Cork is an amazing material! Insulating, heat resistant and besides that it does not burn. All our cork items are produced at a small family factory in Portugal with great care for the environment and their heritage.

The cork trees are cared for with great love and the bark is harvested approximately every 9 years, which makes it a very slow way of farming. We use RECYCLED cork which saves the planets resources so that we can use this wonderful material with good climate conscience!

Scandinavian

In the Scandinavian lifestyle the home is a place for relaxation, for meeting friends and family and for showing your style and personality. Where in other parts of the world it is more common to meet up in restaurants or bars, in Scandinavia we tend to socialize in our homes.

The Scandinavian style is characterized by clean lines, natural materials, smooth surfaces and a restful impression.

MYLLA - SCULPTURAL VASES

Design: Michael Grant

Mylla vases are a result of the designer Michael Grants passion for the material, aswell as his sense for details. It's a complicated process to produce this line with the flowery shape in the bottom, stretching out to end in a perfectly balanced radius. These are not merely vases, they are truly pieces of art and we are immensely proud to have them in our collection. We have three sizes, high, low. High and oval are available in Granite grey and Marble white and low has an additional color, the super nice Moss green!

NIGHTLIGHT

Design: Edmire

Nightlight is a candleholder with a simple aesthetic beauty, inspired by the times before electricity. In those days you would have to bring a candle to the bedroom and place it on the bedside table, hence the name - Nightlight. Even if that is no longer necessary, candlelight still has the same calming effect.

HEX WINERACK

Design: Matz Borgström

Hex Winerack is not only a storage for bottles, it is a piece of art all by itself. The modules slide into each other one by one, which means you can build your winerack into various shapes in your own personal style.

The winerack is made of extruded aluminum and you can choose if you want color on the outside or plain aluminum. With our super smart mounting plates you have the opportunity to hang it under a shelf or a cupboard. Otherwise it looks just as nice standing freely or against a wall.

LINE & CROSS TRAYS

Design: Veronica Vejsholt

These lovely trays are made in Sweden from birch veneer. Generous in size and a fantastic quality, these trays will be the perfect help at table setting aswell as a really nice eye catcher where ever you place it.

Outdoors

Fresh air and daylight makes us happier, healthier and more alert. Watering the plants, feeding the birds and lighting a fire are all actions deeply connected to our roots. Even if your garden only consists of a few pots in the kitchen window, we can all learn from Voltaire's Candide and "let us cultivate our garden".

GARDEN WATERING CAN

Design: Pascal Charmolu

The garden watering can contains 7,5 liters and has a smart handle underneath which makes it easy to manage. Use the pouring function on one side, or tilt it around for the shower function. Whenever it is not in use, it stands like a cool sculpture.

FUEGO - OUTDOOR FIREBOX & BBQ

Design: Johannes Lindner

The campfire has been a gathering place for mankind since the beginning of time. And now the pandemic has made us socialize and spend a lot more time outdoors- all year around. Our fire box is a modern style camp fire aswell as a BBQ, a piece of modern warming design.

It is made of Corten steel which is a sustainable and maintenance free material that will-- slowly change color from black to a rust red. The color changes through oxidation and creates an enduring surface that protects the steel underneath.

Along with each fire box comes a stainless steel grid for BBQ-ing, a stainless steel grid for the fire box and two wooden protection rails.

FUEGO is available in two heights, 55 cm and 92 cm. The large one has an extra storage for wood underneath.

Sustainable

At Born in Sweden we are careful to use raw material that is either recycled or recyclable. The importance of only producing items that will be loved and used for a long time, has never been more important than now. All our products are meant to be classics and we keep them in our assortment year after year.

Stumpastaken was designed already in 1991, by Swedish designer Jonas Torstensson. He realized how many end pieces of candles we throw away and wanted to create something to reduce the waste. With Stumpastaken you can save all candle stumps, place them in this cool looking candle holder and safely burn them all the way down.

Since 1991, the Stumpastaken family has grown with various sizes of the candle holder, as well as a number of accessories and it has become a Swedish design classic.

Stumpastaken is made in Sweden from 100% recycled aluminum.
All cork items are made in Portugal of 100% recycled cork.

Have a look on the following pages for all sizes and versions of this amazing candleholder.

VASES FOR STUMPASTAKEN

Design: Jonas Torstensson

What is a vase?

What is a candleholder supposed to look like?

With the Stumpastaken range we want to widen the concept a bit and instead start thinking in terms of what a decoration object is.

A Stumpastake filled with mini vases like on the photo, gives the impression of an indoor meadow.

Extra special during the time of year that there are no flowers outdoors.

Easily change your decoration piece to a candleholder or a snacks tray, the limit is only your imagination.

Joyful

The time around christmas gives us the opportunity to dispel the darkness, by lighting candles and focusing on what really matters. There is no need for the excesses, instead just slow down and enjoy the long evenings inside.

Oh, and a cup of tea always helps!

APPLE CANDLEHOLDER

Design: Kim Vejsholt

In Sweden we love apples. There are hundreds of different types of apples growing in gardens all over the country. An apple is not only the fruit of wisdom, here it becomes a fruit of light. Mix and match the two sizes for a tasty table setting. Medium size is for normal candles and small is for German candles. Small has size:

CHRISTMAS IDEAS

We love useful combinations!
When a product can be used for more than one purpose and when it can be altered to suit the season, the mood or a theme for a dinner party!
The Stumpastaken concept is perfect for this, and here we show you a couple of our favourite combos for the holiday season!

OUR STORY

Born in Sweden was founded in 2008 by Kim Vejsholt. He was previously the founder and co-owner of Sagaform. After making Sagaform a success story, he and his partner sold the company in 2001.

Kim then had the vision of creating a new company, a design company where each product would be allowed to take longer time in the development phase, with products aiming at a higher end of the market.

So, after a few years, Born in Sweden's first items were launched.

In the beginning all items were designed by Pascal Charmolu, a french designer who's been living in Sweden for many years. For example, he is the designer behind our popular Birdfeeder and Sphere Vases.

Now, we have a lot of exciting collaborations with talented designers and the design process is long and complex. A new product has to fit into Born in Sweden's philosophy and range and also have to be either recycled or recyclable.

Born in Sweden's office and warehouse are located in Borås which is a 30 minute drive east of Gothenburg. However, a lot of inspiration, both for new products and marketing comes from the west coast of Sweden and it's landscape Bohuslän. On the island of Tjörn, we have an extra office and this is where we shoot most of our photographic material.

Make sure to follow us on social media for updates and inspiration.
