

KLIPPAN

Since 1879

HOME 2024/25

CELEBRATING 145 YEARS

Ever since our beginning in 1879, we have manufactured woolen products. We spin, we dye, we warp, we weave and everything in our own oeko-tex® certified factory. That's the story of Klippan, a local family-owned business for five generations.

Our mission is, and always will be, to offer beautiful, high-quality textiles produced with great care for the environment.

PHOTO: MARTIN SCHMIDLI

WITH RESPECT FOR ANIMALS AND NATURE

We buy our wool without intermediaries and the wool can be traced all the way back to the individual farmer, regardless of whether it is Swedish wool or wool from New Zealand.

We are a member of the organization Swedish wool, which promotes locally produced wool that contributes to biological diversity.

We have a Wool Integrity NZ™ brand partner licence which guarantees the use of ethically produced, mulesing-free wool.

We are certified by Woolmark®, which ensures that our products are made from pure new wool.

The image shows three pieces of wool fabric hanging from a line against a bright, sunny background. On the left is a piece with vertical stripes in light cream and brown. In the center is a solid dark brown piece with a fringed edge. On the right is a piece with a small, repeating geometric pattern in a golden-brown color, also with a fringed edge. In the background, a white house with teal-colored window frames is visible, surrounded by lush green grass and foliage. The overall scene conveys a sense of natural, sustainable living.

MADE BY KLIPPAN, MADE TO LAST

By taking good care of your textiles and using them for a long time, you reduce the impact on the environment. Wool is natural, climate-smart, good for your health and a sustainable material. But best of all, it's biodegradable.

WHAT IS YOUR TYPE OF WOOL?

There are many kinds of wool with different characteristics. Make your choice based on your preferences and how you will use the blanket. One thing you can be sure of is that, regardless of type, we always use high quality wool.

SWEDISH WOOL

The locally produced wool comes from small farms all around Sweden. The Swedish wool is thick, warm and well suited for our challenging climate.

GOTLAND WOOL

Gotland sheep are a Swedish breed, dating back to the Viking era. The wool is wonderfully thick, glossy and silky with colours in different shades of natural grey.

RECYCLED WOOL

The recycled wool fibers are collected from our production process. It can be anything from wool from the carding machine to yarn threads from the weaving loom.

LAMBSWOOL

Lambswool is from the first shearing of a sheep at around the age of seven months. Lamb's wool is softer and more elastic than adult wool.

MERINO WOOL

Merino is a famous traditional breed of sheep originally from Spain. It is considered to provide the thinnest, finest and softest sheep wool.

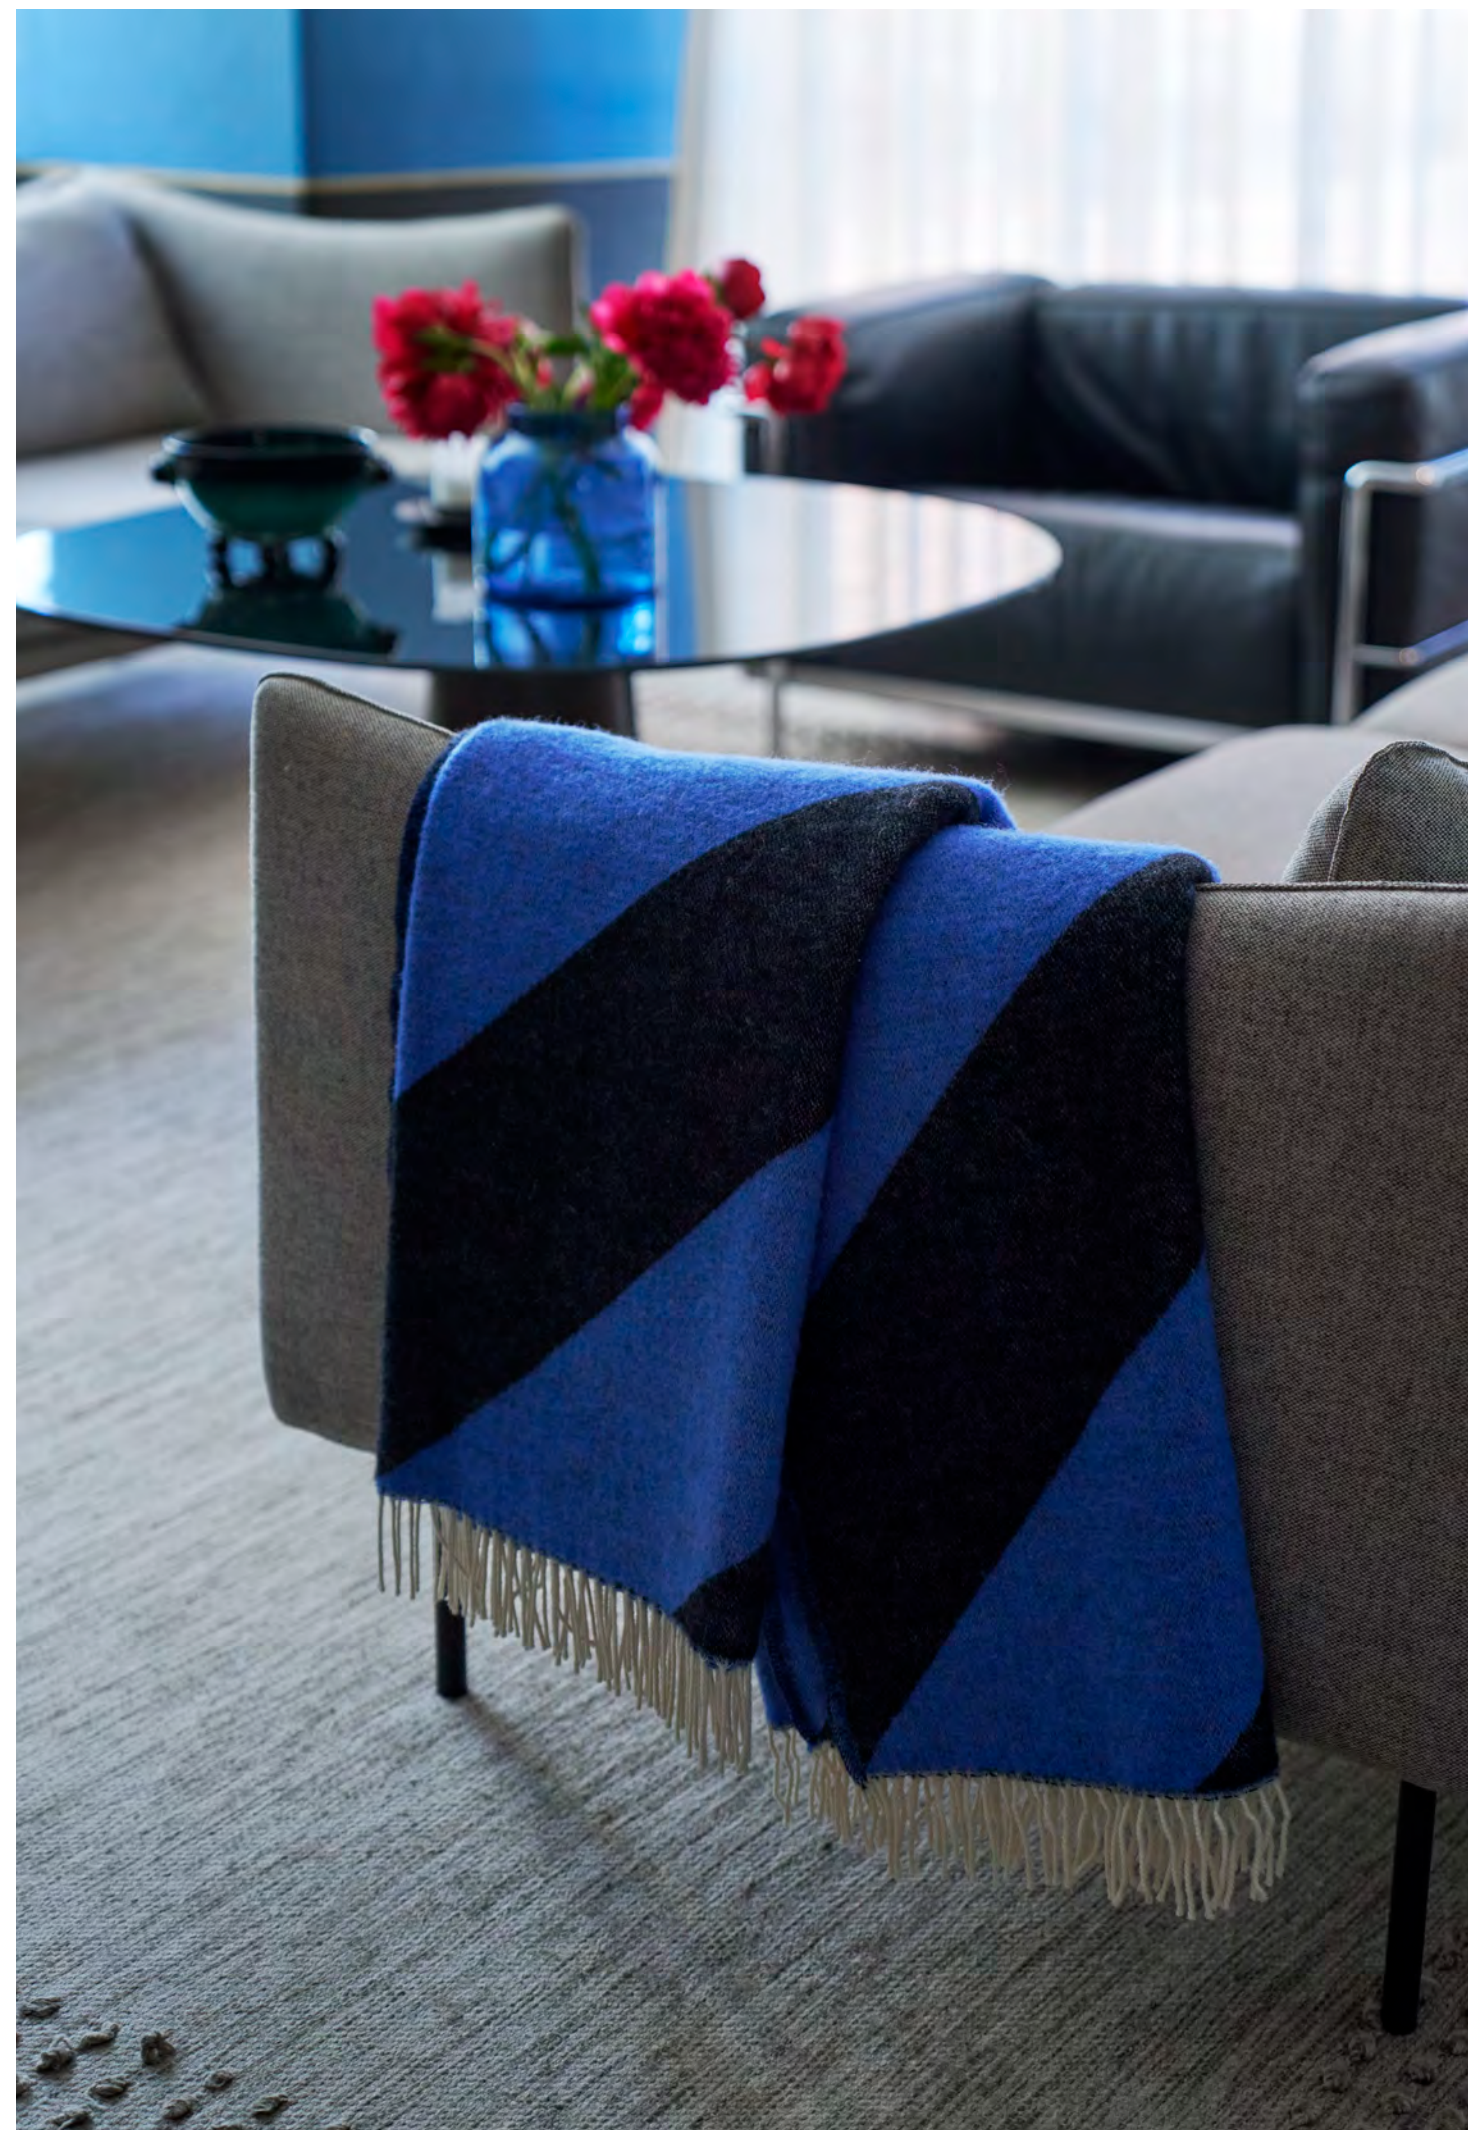

CASHMERE WOOL

Cashmere comes from a special goat and rearing takes place primarily in various parts of Asia. This is the most exclusive fiber of them all. It is strong and heat-insulating while being wonderfully soft and light.

ALPACA WOOL

This highly insulating, soft wool from the Andes protects you effectively from the cold. It is comfortable to wear and has very little pilling.

TOWARDS ZERO WASTE

We have a circular approach in our factory and we constantly try to find creative ways to use all materials.

By collecting our own waste in production and reusing the fibers, we not only create a unique product with a unique color mix, but also make a blanket that is kinder to the environment.

A VALUABLE RESOURCE

So far, 50% of Swedish wool
has been thrown away.

We are working hard to change this.
Today, we are the largest user of
Swedish wool with our 40 tons
per year.

A UNIQUE STORY

Our hand felted accessories are made in Nepal.
With only soap and water, the skilled workers mold these
cute bags and purses made from pure New Zealand wool.
